Description When there is task A with two subtasks A1 and A2 We spent 2 hours on A1, 3 on A2 and show ussues list we won't see that we spent 5 hours on task A The problem is that spent time is not counted from subtasks. class query.rb line 406 changing @available_columns.insert index, QueryColumn.new(:spent_hours, to @available_columns.insert index, QueryColumn.new(:total_spent_hours slope the problem I'd like to mention that when we edit task A spent time is counted correctly
