

Redmine - Defect #12749

Plugins cannot route wiki page sub-path

2013-01-05 16:42 - Ruedi Silvestri

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Plugin API	Estimated time:	0.00 hour
Target version:	2.2.2	Affected version:	2.2.0
Resolution:	Fixed		

Description

I've got "Graphviz Wiki-macro Plugin" (https://github.com/tckz/redmine-wiki_graphviz_plugin) installed which introduces macro's to inject dynamically generated graphs into wiki pages. With 2.2 such doesn't work anymore as a new route has been introduced in redmine routes.rb:

```
get 'wiki/:id/:version', :to => 'wiki#show'
```

Due to the fact that any additional route is caught by this approach the routes.rb of the respective plugin cannot introduce additional sub-pages to the wiki pages.

Easiest way to work around this would be to have an identifier added for wiki versions resulting to a route as:

```
get 'wiki/:id/:version/:version', :to => 'wiki#show'
```

For now in my environment I just commented this very route and it works as the default access to older versions of wiki pages is anyway by projects/:id/wiki/:id?version=:version

Maybe this patch would fix this problem:

Index: config/routes.rb

```
-----  
--- config/routes.rb      (revision 11111)  
+++ config/routes.rb      (working copy)  
@@ -157,7 +157,7 @@  
     end  
     end  
     match 'wiki', :controller => 'wiki', :action => 'show', :via => :get  
-   get 'wiki/:id/:version', :to => 'wiki#show'  
+   get 'wiki/:id/:version', :to => 'wiki#show', :constraints => {:version => /\d+/  
   delete 'wiki/:id/:version', :to => 'wiki#destroy_version'  
   get 'wiki/:id/:version/annotate', :to => 'wiki#annotate'  
   get 'wiki/:id/:version/diff', :to => 'wiki#diff'
```

Can you confirm?

#2 - 2013-01-09 07:56 - Ruedi Silvestri

Just finished my testing of this and things look perfect with this approach. Much appreciated for prompt fix of the issue. 2.2 looks awesome to me, great job.

#3 - 2013-01-09 07:57 - Ruedi Silvestri

- Status changed from New to Resolved

just missed to change the status. :)

#4 - 2013-01-10 23:21 - Jean-Philippe Lang

- Target version set to 2.2.2

#5 - 2013-01-11 18:43 - Jean-Philippe Lang

- Subject changed from Routes entry # "get 'wiki/:id/:version', :to => 'wiki#show' " prevents plugins to use sub-path for wiki to Plugins cannot route wiki page sub-path
- Category changed from Wiki to Plugin API
- Status changed from Resolved to Closed
- Assignee set to Jean-Philippe Lang
- Resolution set to Fixed

Fix committed in [r11166](#), thanks for the feedback.
