

## Redmine - Defect #1276

### It is possible to lock out the last admin account

2008-05-21 11:54 - Anonymous

<b>Status:</b>	Closed	<b>Start date:</b>	2008-05-21
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Administration	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	0.7.2	<b>Affected version:</b>	0.7.1
<b>Resolution:</b>	Fixed		

**Description**

An admin user can go in to the user settings and lock all admin accounts. When they lock their own account, it immediately logs you off, forcing you to log back in. If you've locked all the admin accounts, then you can't get an admin user back.

It would be good to stop a user from either

- Locking their own account (this should be done by another admin)
- Making themselves a non-administrator

This would prevent users from locking the last admin account or inadvertently doing this by removing themselves from the admin list (as they may be the last admin account)

- redmine-0.7.1
- svn-1.4.6 (over http)
- ruby-1.8.6
- rails-2.0.2
- sqlite3-3.5.8
- mongrel-1.1.4

#### Associated revisions

##### Revision 1448 - 2008-05-24 20:42 - Jean-Philippe Lang

Prevent admin users from locking their own account (#1276).

##### Revision 1449 - 2008-05-25 13:22 - Jean-Philippe Lang

Prevent admin users from making themselves non-administrator (#1276).

#### History
