

Redmine - Defect #12773

Undocumented Feature: Create Description for file attachments.

2013-01-08 16:28 - Michael Kling

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Documentation	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Fixed		
Description			
<p>I noticed in http://www.redmine.org/projects/redmine/wiki/Rest_api#Attaching-files that in the example xml</p> <pre>POST /issues.xml <issue> <project_id>1</project_id> <subject>Creating an issue with a uploaded file</subject> <uploads type="array"> <upload> <token>7167.ed1ccdb093229ca1bd0b043618d88743</token> <filename>image.png</filename> <content_type>image/png</content_type> </upload> </uploads> </issue></pre> <p>no "description" tag is given.</p> <p>It's odd as it would be pretty straight forward to give here the possibility to add the file description - so i tried it out and it is working as expected. Adding the tag <description>Test</description> inside <upload> gives the uploaded file a description.</p> <p>Unfortunately it is not documented in the api and therefore it is not included into libraries like the https://code.google.com/p/redmine-net-api.</p> <p>Can the documentation be added in the wiki?</p>			

History

#1 - 2013-01-08 16:32 - Michael Kling

Created a patch for the .net api and added also an issue there:

<https://code.google.com/p/redmine-net-api/issues/detail?id=32&q=label%3AType-Defect>

#2 - 2013-01-08 17:14 - Etienne Massip

- Tracker changed from Patch to Defect
- Category changed from REST API to Documentation
- Status changed from New to Closed
- Resolution set to Fixed

Added the markup in the example in documentation, thanks.
