Is duplicate of Redmine - Defect #13544: Commit reference: autogenerated issu...		Closed	

History

#1 - 2013-02-12 11:42 - Dietmar H

I can confirm this.

I guess the extended syntax is intentional, because now more then 1 repository per project are allowed. With svn repos, that means the repo must be included in the commit macro in order to uniquely identify the commit.

However the macro isn't expanded to a link if it contains the repo.

Redmine version here: 2.2.2.stable

#2 - 2013-02-12 11:56 - Dietmar H

seems to be a duplicate of [#13005](#)

#3 - 2013-02-16 08:10 - Bảo Gia

No. [#13005](#) is about repoid "contains underscores"

#4 - 2013-02-16 08:13 - Bảo Gia

No. This is a bug, not "intentional".

It should be "commit:repoid|hash" (have repoid => can support >1 repo per project)

#5 - 2013-03-17 06:54 - A B

- File *cs.patch* added

Attached is a patch to fix this. Unlike the patch in [#12685](#) this works for both hash-based and non-hash based (e.g. subversion) revisions, and includes a unit test for the hash-based case (the non-hash based case already has a test).

#6 - 2013-03-17 09:30 - Daniel Felix

Thanks for providing a patch!

I would like to test it but I can't. I'm currently at hospital. Maybe someone can check this. Maybe this one could find its way in 2.2.4/2.3 in a fast pace if

it could be evaluated! :-)

#7 - 2013-11-22 15:18 - Viktor Berke

Hi, I can confirm this bug. I've tested both patches (i.e. this one and the one from [#12685](#)) on Redmine 2.4.0, they both work. Please merge this.

#8 - 2013-11-22 15:27 - Viktor Berke

- File *cs_mod.patch* added

Though I suggest some logical cleanup, i.e. | is not part of the repo id. The very slightly modified patch is attached.

#9 - 2015-07-13 13:08 - Toshi MARUYAMA

- Status changed from *New* to *Closed*

- Resolution set to *Duplicate*

Fixed by [#13544](#).

#10 - 2015-07-13 13:09 - Toshi MARUYAMA

- *Is duplicate of Defect #13544: Commit reference: autogenerated issue note has wrong commit link syntax in multi-repo or cross-project context added*
