

Redmine - Feature #13087

Add Continuous Integration build status to issue

2013-02-06 00:07 - Stefano A.

| | | | |
|---|----------|------------------------|-----------|
| Status: | New | Start date: | |
| Priority: | Normal | Due date: | |
| Assignee: | | % Done: | 0% |
| Category: | REST API | Estimated time: | 0.00 hour |
| Target version: | | | |
| Resolution: | | | |
| Description | | | |
| It would be useful to have something similar to the github API which gives 3rd parties tools the ability to send notifications about the current CI build status of a merge request. In the case of Redmine I propose to add the status for each linked commit. | | | |

Well, this seems more likely a plugin request?

Have you noticed <http://wiki.hudson-ci.org/display/HUDSON/Redmine+Plugin> ? Just for example.

#2 - 2013-02-06 10:54 - Stefano A.

not really a plugin request, I was suggesting to add an API similar to the GitHub's one. I don't see the point for having a plugin for this feature

#3 - 2013-02-06 11:01 - Daniel Felix

Ah okay, you mean to set some commit fields via REST?

Hm... well I associated your request to some system like forge.typo3.org with the CI integration.
