Redmine - Feature #13089

Bulk-Delete(!) of start-date and due-date

2013-02-06 09:26 - Ralf S.

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%

Target version:				
Resolution:	Duplicate			

Description

Use Case:

- We often handle tickets together in the bulk-edit-mode (by SHFT-SELECT + EDIT), just to move/edit/update some fields - especially update/change time entries in one step. This works fine.
- We sometimes need to delete a time entry field (e.g., if a planning of the task has to be reworked). This works too, by editing one ticket.

BUT:

- But it seems to be impossible to delete a time entry in the bulk edit dialog for multiple tickets.
- As a result, we sometime have open >20 tickets, just to clear the same time entry.

Similar Tickets:

- I've searched for feature/bug tickets and found #6647, #7810 and #7996, but none of them handles our request.

Request:

- Is it possible to add the same delete-behaviour for time-entries to the bulk-edit-dialog, as in the simple edit dialog?
- This means, using an 'delete' indicator (e.g. as SPACE) in the time-entry field, to clear the time-entry-fields of all the selected tickets.

Well, did you notice that you can edit all time entries and filter them?

As suggestion:
http://[DOMAIN]/projects/[PROJECTIDENTIFIER]/time_entries

Filter by issues or project, select wrong timeentries and delete them.

#2 - 2013-02-06 10:10 - Ralf S.

Ah - ok, I complete used the wrong vocabulary! I do NOT mean the 'spent-time' entries (effort for a task).

I mean the fields 'start-date' and 'due-date' - sorry!

I'm not allowed to change the 'description' field of the ticket. Can anybody give me the right to - or change it for me?

#3 - 2013-02-06 10:17 - Daniel Felix

- Subject changed from Bulk-Delete(!) of Time-Entries to Bulk-Delete(!) of start-date and due-date

- Status changed from New to Closed

- Resolution set to Duplicate

Thanks for your correction.

I'm closing this issue, as it seems to be a duplicate of #2199.

This is clear, since I now know what was your request. :-)

#4 - 2013-02-06 10:27 - Ralf S.

Using the correct terminology, I now found [#10363](#) and [#2199](#) - where [#2199](#) completely covers our request and is already planned.

Please close/delete this ticket! :-)

Update: YES - you already did it! Thanks!
