

Redmine - Defect #13110

Double order by prevents documents from working in MSSQL

2013-02-08 16:07 - Ryan Eberly

| Category: | Documents | Estimated time: | 0.00 hour |
| Target version: | | Affected version: | |
| Resolution: | Invalid | | |
| Description | | | |
| We are using FreeTDS with SQL Server 2012 (on windows server) | | | |
| documents_controller.rb: def show @attachments = @document.attachments.find(:all, :order => "created_on DESC") end | | | |
| this results in the sql query having 'created_on' appear twice in the order by clause that activerecord generates- which is illegal in SQL Server. My fix was to remove the :order in the document_controller show function. | | | |
| Environment: Redmine version 2.2.2.stable Ruby version 1.9.3 (i386-mingw32) Rails version 3.2.11 Environment production Database adapter SQLServer Redmine plugins: goodville_redmine 0.0.1 redmine_contacts 3.1.1-light redmine_mylyn_connector 2.8.2.stable redmine_plugin_views_revisions 0.0.1 | | | |

History

#1 - 2013-02-08 16:26 - Daniel Felix

- Target version set to 2.3.0

This relates to [#12713](#) and should be fixed before Redmine 2.3 release which introduce SQL Server support.

Can someone check this?

#2 - 2013-02-08 19:34 - Etienne Massip

- Status changed from New to Closed

- Target version deleted (2.3.0)

2.2.2.stable does not support MSSQL, this is not related to trunk / 2.3.0 code.

#3 - 2013-02-08 19:35 - Etienne Massip

- Resolution set to Invalid
