Gantt bars with start date and end date on the same day don't become red by overdue (#13521).

Patch by Mizuki ISHIKAWA.

As I remember, they wont have any bar. Doesn't it? But in the tracker is a patch which fixes this behaviour.

I would try this, but I'm currently not at home (just on my smartphone).

You can find the patches on [#12730](#) and it's related issues. Maybe you could give a quick feedback.

DOES it.

This issue is not so urgent and can be combined with another refine.

The thread is too messy to figure out where is the solution for this issue.

FWIW: Pavel Shalagin wrote about it first (and even provided a patch for it) in [#6276#note-17](#) about 7 years ago:

I confirmed that the patch written by Pavel Shalagin will solve the problem.
However, I think that the Gantt Bar should turn red when the start date is the same as the current date.

I added a few fixes and test code to the patch written by Pavel Shalagin at #6276#note-17.
