

Redmine - Defect #13608

Parent column in CSV export should include issue id only

2013-03-27 06:05 - Anton Nepomnyaschih

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	2.6.1	Affected version:	
Resolution:	Fixed		
Description If you export issues list to CSV with all columns, then you get parent task column with: parent task tracker, ID and subject in a single cell. Could it be only parent task ID? By the ID I can get all necessary info about the parent task. But now I have to split the line and get the ID manipulating with the string.
