Redmine - Defect #13608

Parent column in CSV export should include issue id only

2013-03-27 06:05 - Anton Nepomnyaschih

Status: Closed Start date:

Priority: Normal Due date:

Assignee: Jean-Philippe Lang % Done: 0%

Category: Issues Estimated time: 0.00 hour

Target version: 2.6.1

Resolution: Fixed Affected version:

Description

If you export issues list to CSV with all columns, then you get parent task column with: parent task tracker, ID and subject in a single cell.

Could it be only parent task ID? By the ID I can get all necessary info about the parent task. But now I have to split the line and get the ID manipulating with the string.
