- File lt.yml added

Fixes these issues:

1. Filas => Failas (visible in Lithuanian translation on this site even :->)
2. <http://www.redmine.org/issues/13674#note-1> Replace to Atom instead of deprecated RSS.
3. <http://www.redmine.org/issues/13674#note-1> Label "field_generate_password" added.
