Same problem for me. I confirm the defect.

#2 - 2013-04-09 12:00 - Filou Centrinov

Your rails version? May there is a relation to [#13630](#).

No bug with my Redmine 2.3 using ruby 1.9.3 and rails 3.2.13.

#3 - 2013-04-09 13:30 - Christian Dreising

Rails Version 3.2.13

Ruby Version 1.9.3

#4 - 2013-04-09 14:01 - Etienne Massip

Any plugins?

#5 - 2013-04-09 15:31 - Guilherme Funchal da Silva

Hi!

Ruby and Rails versions :

ruby 2.0.0p0

Rails 2.3.14

I have some plugins installed, but the error happens without listing them on task.

Regards

#6 - 2013-04-09 16:20 - Daniel Felix

I can't confirm this on my machine and on Redmine.org. Ways to reproduce?

#7 - 2013-04-10 09:40 - Christian Dreising

In my case, the defect is caused by the [Extended Fields](#) plugin. Without the plugin, everything is OK.

#8 - 2013-04-10 10:51 - Toshi MARUYAMA

- Status changed from New to Closed

- Resolution set to Invalid
