Redmine - Defect #13980

Custom field permissions not applying

2013-05-06 09:16 - sadhanandavel ramdoss

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Custom fields		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate		**Affected version:**	2.2.3

Description
Hi, I have created a couple of custom fields and want to set the field permissions to them based on the status of the issue. For example, the custom field "Actual start" should be 'required' only when the issue status is 'In progress'. Like wise, the custom field 'Actual end' is 'required' only when the issue status is 'Resolved'. I set these permissions in the Workflow module, but they are not working when I create/update the issue.

Hi, I checked this issue again. Actually these settings work for all the roles. But if a user is also an Admin, these validations are not applying when he/she creates/updates the issue.

If it is an intended feature, please resolve the issue.

Thanks.
