

Redmine - Defect #14077

Exception in 2.3.1 undefined method `&' for "0":String in app/models/tracker.rb (with possible fix)

2013-05-17 10:35 - c pg

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	2.3.1
Resolution:	Cant reproduce		
Description			
just updated to ruby 1.9.3 and 2.3.1. Started getting a few exceptions.			
Here is one:			
<pre>ActionView::Template::Error (undefined method `&' for "0":String): 36: rows.left 1(:field_status), h(@issue.status.name), :class => 'status' 37: rows.left 1(:field_priority), h(@issue.priority.name), :class => 'priority' 38: 39: unless @issue.disabled_core_fields.include?('assigned_to_id') 40: rows.left 1(:field_assigned_to), avatar(@issue.assigned_to, :size => "14").to_s.html_s afe + (@issue.assigned_to ? link_to_user(@issue.assigned_to) : "-"), :class => 'assigned-to' 41: end 42: unless @issue.disabled_core_fields.include?('category_id') app/models/tracker.rb:72:in `block in disabled_core_fields' app/models/tracker.rb:72:in `select' app/models/tracker.rb:72:in `disabled_core_fields' app/models/issue.rb:460:in `disabled_core_fields' app/views/issues/show.html.erb:39:in `block in _app_views_issues_show_html_erb___368967065164718 7124_55351200' app/helpers/issues_helper.rb:144:in `issue_fields_rows'</pre>			
what i did with some minimal guesswork, and seems to (maybe) work, is:			
<pre>- @disabled_core_fields = CORE_FIELDS.select { i += 1; (fields_bits 0) & (2 ** i) != 0} + @disabled_core_fields = CORE_FIELDS.select { i += 1; (fields_bits.to_i 0) & (2 ** i) != 0}</pre>			
i did not see this reported and i do not think i missed anything in upgrading.			
also, i did not see this fixed in this area of the code (though it may be fixed somewhere else, course).			
i am running this on an instance on my Amahi server.			

History

#1 - 2013-05-17 12:15 - Etienne Massip

- Category set to Issues

#2 - 2013-05-17 20:23 - Jean-Philippe Lang

- Resolution set to Cant reproduce

Works for me. The fields_bits column is numeric, and .to_i should not be needed.

#3 - 2013-05-21 02:50 - c pg

- Status changed from New to Resolved

reinstalled the sources from git and i am not getting this any more. strange. closing.

#4 - 2013-05-21 03:06 - Toshi MARUYAMA

- Status changed from Resolved to Closed

Thank you for your feedback.
