

## Redmine - Feature #1411

### Add support for tag-browsing in CVS

2008-06-09 14:42 - David Marín Carreño

#### History

##### #1 - 2009-07-09 07:53 - Adam Soltys

I'm working on a patch for this. I've already got branch/tag browsing working for git and mercurial repositories. More to come soon, hopefully. See #1406 for more information.

##### #2 - 2010-03-26 10:07 - Gareth Sylvester-Bradley

The repository browsers are one of the great things about Redmine. I'm stuck with supporting CVS repositories but I very much like the Redmine CVS integration, the aggregation of file revisions into changesets, etc.

However, it would definitely help to be able to see CVS tag and branch names in the browser, and preferably to limit the view to a particular branch or tag.

Is anyone still working on this?

##### #3 - 2010-11-18 07:34 - Pit Seberum

How are things going on CSV branches browsing?

##### #4 - 2010-12-01 14:37 - Damien Couderc

+1

Could be nice for both tags and branches
