

Redmine - Defect #14178

PDF API broken in version 2.3.1

2013-05-30 17:51 - Massimo Rossello

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	PDF export	Estimated time:	0.00 hour
Target version:	2.3.2	Affected version:	2.3.1
Resolution:	Fixed		
Description			
The change in number of arguments in <code>issues_to_pdf_draw_borders()</code> in file <code>lib/redmine/export/pdf.rb</code> introduced by #13630 (r11693) breaks some plugins (namely <code>redmine_wktime</code>).			
Would it be possible to restore the same arguments, even if <code>id_width</code> argument not used, for API compatibility?			
Thanks
