Redmine - Defect #14202

Documentation is overly pessimistic about RubyGems

2013-06-03 22:59 - mathew murphy

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**

Category:	Documentation	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Fixed	**Affected version:**	

Description
The [install guide](http://www.redmine.org/projects/redmine/wiki/RedmineInstall) states that Redmine requires RubyGems <= 1.8.
However, I just installed Redmine 2.3.1 using Ruby 2.0.0-p195 and RubyGems 2.0.2, and everything went fine. (Does RubyGems 1.8 even run on Ruby 2.0?)

History

#1 - 2013-06-04 18:41 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Fixed

You're right, rubygems requirements are removed from the installation page.
Thanks for pointing this out.
