Redmine - Patch #1425

Entourage (and some old client) fails to correctly render notification styles

Description

Hi,

Entourage 2008 and some other (older) email clients has some problems with advances CSS statements.
For example, Entourage doesn't correctly render nested elements (body > h1) and long CSS lines (it breaks them into new lines with an = simbol).

I've made some changes to the email HTML layout to ensure all CSS definitions are compatible with the most part of email clients I have ever worked with.

+1

This has been a problem I have been experiencing on my Entourage. Thanks for making a patch!

You're more than welcome, Stephanie.
I hope Jean-Philippe is going to apply it in time for the next release. :)
