

Redmine - Defect #14312

Field Permissions dropdown in Workflow is missing ' Required ' option.

2013-06-18 21:31 - Nick Gorbikoff

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues workflow	Estimated time:	0.00 hour
Target version:		Affected version:	2.3.1
Resolution:	Invalid		

Description

Hello.

I'm pretty sure it's a bug. This is a brand new installation of redmine with some plugins. Everything worked pretty much out of the box. (I'm using 1x elsewhere this is my first 2x Redmine installation). When I go into Workflow > Field Permissions to require some standard fields (I want users to select category, due date and assigned_to fields) - the only option I get in a dropdown is 'read-only'. However according to everything I read on forums and issues list it should also have 'required' option. Any missing something or did I knot do something during install? (I'm pretty sure I followed installation guide to the letter). It's not critical, just really annoying to go into the system and clean up after users - make sure that all bugs have a person and due date assigned and are properly categorized. Some of my users are untrainable :-)

Here are my Redmine details:

Environment:

Redmine version	2.3.1.stable
Ruby version	2.0.0 (x86_64-linux) # Ruby 2.0.0p195 through rbenv on Debian 7
Rails version	3.2.13
Environment	production
Database adapter	PostgreSQL # 9.2

- Status changed from New to Resolved

Just ignore this. I think I need to go my vision checked and get 12 hours of sleep - looking at the wrong fields! ARHRHRHGH. Sleepless nights and 2 infants at home!!

#2 - 2013-06-19 12:35 - Jan Niggemann (redmine.org team member)

- Status changed from Resolved to Closed

- Resolution set to Invalid
