Category:	Permissions and roles		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Wont fix			

Description

A permission 'edit issue planning' can be added which allows or disallows the possibility to edit following fields:

- Priority
- Target version
- Start and due date
- Estimated time
- % Done

These fields are currently frequently abused by reporters and should only be filled in by the developers of a project. Otherwise, reporters can pollute the issue overviews, like demonstrated by the current redmine roadmap.

History

#1 - 2011-01-25 19:46 - Brian Lindahl

Created patch issue to follow the progression of my patch to add this feature and other issue edit permission improvements. Please add relation to #7444.

#2 - 2020-01-13 05:38 - Go MAEDA

- Related to Feature #3521: Permissions for roles to change fields per tracker/status added

#3 - 2020-01-13 05:42 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Wont fix

You can set fields to read-only per tracker/status/role in "Fields permission" tab in Workflow page. It is more fine-grained control than adding the permission you suggested.

The feature became available in Redmine 2.1.0 (#3521).
