Redmine - Defect #14550

Issue edition : accesskey="e" conflict between update link and textarea edit

2013-07-26 11:02 - Vincent Caron

Target version:			
Resolution:	Duplicate	**Affected version:**	2.2.2

Description

I was wondering why the accesskey="e" was not working on /issues/:id and discovered that the issue_description textarea already registers the accesskey="e" shortcut.

In my case (Chromium 28), the shortcut ends up disabled (it neither clicks 'Update' nor focus on the textarea).

Two possible issues :

- rename the ticket update shortcut, maybe as accesskey="u"
- remove the textarea accesskey="e" which is actually useless in ticket edition mode
