### #3 - 2008-06-16 18:53 - Jean-Philippe Lang

<http://rubyonrails.org/down> says that there are some compatibility issues with ruby 1.8.7.  
Did you upgrade ruby when upgrading to Redmine 0.7.2 ?

### #4 - 2008-06-17 01:26 - Dennis K

You are totally right, I missed that point completely. Seems that I forgot to test redmine after upgrading rails..  
With "ruby 1.8.6 (2008-03-03 patchlevel 114) [x86\_64-linux]" redmine works flawless :)

Anyway, thanks for taken the time!  
Now I'm going to try out the suggestions in the forums-thread.

### #5 - 2008-06-17 01:52 - Dennis K

In the [forums thread](#) Gwenael Pellen posts a code snippet that makes redmine work again also with ruby 1.8.7

### #6 - 2008-06-17 21:09 - Jean-Philippe Lang

- Status changed from Reopened to Closed
- Affected version (unused) deleted (devel)

OK, I close this ticket since it's not a Redmine issue. I've just added a note about this in [RedmineInstall](#).  
Thanks for the feedback.
