No.
I mean this issue is on user page.

This issue is affecting our installation too. Interestingly, it seems to only affect one of our users (not all). That user has the same timezone set in their preferences as everyone else.

When other users visit that user's page it shows up incorrectly, and when that user visits any other user's page, the times are shown correctly.

We have v2.3.0.stable installed, though.

+1

#10 - 2017-01-01 03:11 - Go MAEDA

- Category set to Activity view

- Target version set to 3.2.5

This issue can be fixed by the following patch.
ActivitiesController#show have been fixed in [r9726](#) ([diff](#)) in order to handle time zones properly. This patch applies the same fix to
UsersController#show.

Hi, I came here from [#24707](#).
I tested the patch in note 10 ([#14658#note-10](#)).
Environment

- Redmine 3.1.1 (Windows) (not the target version :-))
- Time Zone of the viewer: GMT+09:00(Tokyo).

Result
The patch worked well. Attached is the screen captures of 'Before' and 'After' patch with comments (Zipped).

Thank you.

#15 - 2017-01-05 05:42 - Go MAEDA

kaz k, thanks for the screenshots.
This problem will be fixed in upcoming 3.2.5 / 3.3.2 / 3.4.0.

Your [#24707](#) triggered me to investigate this issue. Thank you again.
