Add support for attaching file to WIKI pages by REST API (#14830).

Patch by Takenori TAKAKI.

History

#1 - 2013-09-03 14:12 - Thomas Godard

It is possible to attach files to Wiki pages ... See : <http://www.redmine.org/projects/redmine/wiki/RedmineProjects> for example

#2 - 2013-09-03 23:26 - Michael Medin

Sorry, I forgot to mention I meant via the REST API.

Had the same problem here, the following patch make it working (I am not a ruby specialist, just took the snippet from the issue controller; normal upload and rest upload is then working):

I added a test-case for Sven S.'s patch.

This patch workes fine under the latest trunk r15317.

I would be happy if I could see the feature in Redmine 3.3.0.

Committed, thanks. I've removed the test with the 'attachment' param as it's not supposed to be used with the API. Attachments should be added through the API with wiki_page[uploads].

AS a workaround i have attached all files to an arbitrary ticket instead which works but is pretty awkward.

It would be nice if it was possible to attach the file directly to the wikipage instead.

I'm really not clear about this feature. @Michael, Lang Can you explain more about it. How can i replay it ? I'm using v.3.2.6
