Redmine - Defect #14844

migrate_from_trac is not run in database transaction

2013-09-04 10:22 - Marc Schlaich

Status:	New	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Importers	**Estimated time:**	0.00 hour
Target version:			
Resolution:		**Affected version:**	

Description

If there is an error in the migrate_from_trac script, changes to the database are not rolled back. This could leave the project in a state where you can encounter a lot of 500 Internal errors.

E.g. after [#14843](#) there are no users in the database yet, but there are already links to users. Clicking on a user link fails with Internal error.
