Description

Hy all. We are using Redmine not for a while. What a tremendous app. I was wondering where I can change an issue subject and description. And I found hard to find this little link called **More** (I just found it looking at the redmind closed issues). So I propose to change the label to advanced instead of more.

As a matter of fact, the more consistent change will be moving it to the right side of the edition div. This will make it looks more like the update, the reply, the log time and all others. How about it?
