Redmine - Defect #14883

Update activerecord-jdbc-adapter

2013-09-12 03:42 - Daniel Morgan

Status:	Closed	**Start date:**	
Priority:	High	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Gems support	**Estimated time:**	0.00 hour
Target version:	2.3.4		
Resolution:	Fixed	**Affected version:**	

Description

When using redmine under JRuby, the bundler installs activerecord-jdbc-adapter 1.2.5 specified by the Gemfile.
There are some serious issues with this version when using JRuby in Ruby 1.9 mode such as:
https://github.com/jruby/activerecord-jdbc-adapter/issues/229

Can redmine be updated to use a more recent gem version?
(The above issue has been fixed in 1.2.6)
