This is the patch of the single commit I did. I bluntly followed the guide here the first time:

http://www.redmine.org/projects/redmine/wiki/How_to_create_patch_series_on_Mercurial_and_Git

But I guess you only need the changes made by me.

Br,
Lennart

This is how you patch btw.

Move in to the redmine root folder and run

```
patch -p1 < /path/to/patch_no.yml-git.diff
```
