

Redmine - Patch #14971

Plugin rollback migration

2013-09-23 12:50 - Jérôme BATAILLE

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Database	Estimated time:	0.00 hour
Target version:			
Description The first migration is not rollback-able with : <code>@rake redmine:plugins:migrate NAME=<plugin_name> VERSION=<version_name></code> because there is no previous migration to migrate to. Here is a patch to be able to rollback plugins, with a steps parameter			

History

#1 - 2014-05-14 14:36 - Jérôme BATAILLE

Any chance that this straightforward patch can be integrated ?

#2 - 2014-07-30 11:40 - Jérôme BATAILLE

Example of usage :

`rake redmine:plugins:rollback NAME=<plugin_name> STEP=1`

#3 - 2022-01-15 06:42 - Go MAEDA

- Status changed from New to Needs feedback

The first migration is not rollback-able
with :
`@rake redmine:plugins:migrate NAME=<plugin_name> VERSION=<version_name>`

because there is no previous migration to migrate to.

You can roll back all migrations including the first one by specifying "VERSION=0".

`bin/rake redmine:plugins:migrate NAME=<plugin_name> VERSION=0`

#4 - 2022-04-10 03:12 - Jérôme BATAILLE

@go You can close this issue, I have no time anymore to contribute to Redmine.

#5 - 2022-05-04 10:05 - Go MAEDA

- Status changed from Needs feedback to Closed

Redmine already has the suggested feature. See [#14971#note-3](#).
