<b>Target version:</b>		<b>Affected version:</b>	
<b>Resolution:</b>	Fixed		

#### Description

The file "config/environment.rb" says to use "rake create\_sessions\_table" to create tables, but this doesn't work :

```
# rake create_sessions_table
(in /usr/local/www-rw/novaris/redmine)
```

```
rake aborted!
Don't know how to build task 'create_sessions_table'
```

(See full trace by running task with --trace)

interestingly, the file "config/environment.rb" is the only with create\_sessions\_table in the whole source tree

#### Associated revisions

##### Revision 1593 - 2008-06-27 22:18 - Jean-Philippe Lang

New rake task name in comments for creating sessions migration (#1520).

#### History

##### #1 - 2008-06-24 18:12 - Eric Davis
