

Redmine - Defect #15344

Default status always inserted to allowed statuses when changing status

2013-11-13 14:39 - eyal R

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Issues workflow	Estimated time:	0.00 hour
Target version:	2.3.4	Affected version:	2.3.3
Resolution:	Fixed		
Description			
In IssuesController , "build_new_issue_from_params" method is called when status is changed. (set in before_filter for update_form action)			
build_new_issue_from_params has the following line:			
<pre>@allowed_statuses = @issue.new_statuses_allowed_to(User.current, true)</pre>			
the second parameter , being always true , causes IssueStatus.default to be pushed to the allowed_statuses.			
I think this is a bug.			

Associated revisions

Revision 12277 - 2013-11-15 20:59 - Jean-Philippe Lang

Fixed that update_form always proposes the default status when updating an existing issue (#15344).

Revision 12279 - 2013-11-15 21:32 - Jean-Philippe Lang

Merged r12277 (#15344).

Revision 12280 - 2013-11-15 21:33 - Jean-Philippe Lang

Merged r12277 (#15344).

History

#1 - 2013-11-15 21:00 - Jean-Philippe Lang

- Category set to Issues workflow
- Status changed from New to Resolved
- Assignee set to Jean-Philippe Lang
- Target version set to 2.3.4
- Resolution set to Fixed

You're right, default status should be proposed for new issues only. It's fixed in [r12277](#).

#2 - 2013-11-15 21:32 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Merged.
