The copy resets the status by design.

Copying an issue is just like creating a new one. That's why the copy is created with the default status.

If you copy a closed issue, do you really want the copy to be created as closed ?

#2 - 2008-07-02 13:26 - José Campos

"If you copy a closed issue, do you really want the copy to be created as closed ?"

No, you are right. It doesn't make sense. But, otherwise, if the status is assigned (to a particular developer), it helps if the copied issue is assigned too to the same developer (that was what I was looking for).

Nonetheless, it doesn't take much to change the status to Assign by hand.

Thanks.

#3 - 2008-07-16 20:38 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Wont fix

Thanks for the feedback. The current behaviour is the easiest to handle.

#4 - 2014-05-23 09:28 - Maik Lindner

Current behaviour: Copying issues keeps status :(If I copy a closed issue I create a new closed one. Redmine 2.5.1
