Description			
I've been using the Rest API mobile apps.			
RedminePM Redmine Client for iPhone / Android http://redminepm.com/			
I don't know the 'close status' of the project, and I want in the response. There is a lot of requests from the App user, to want to hide the project ended.			
Thanks :)

I had missed the ticket of the same content, sorry.
And, thank you for! :)

[#12921](#) is a bit different as it requests a filter on project status.
