Description			
I've read a number of posts with people struggling to migrate Redmine from MySQL to PostgreSQL.			
I've successfully done this to a rather large Redmine instance and have written a blog post on it to help others with the same issue: http://ixa.io/2014/02/12/migrate-redmine-from-mysql-to-postgresql/			
Hope it helps!			

History

Better on forum or wiki, isn't it?

#2 - 2014-03-03 13:00 - Toshi MARUYAMA

- Category changed from Database to Documentation

- Status changed from New to Closed
