

Redmine - Defect #16149

Textile within-word markup doesn't work

2014-02-22 09:13 - John Gabel

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Text formatting	Estimated time:	0.00 hour
Target version:		Affected version:	2.4.3
Resolution:			
Description			
<p>Textile should allow markup to be used inside of a word with appropriate escaping, but this doesn't work in Redmine. For example:</p> <pre>c[*oo*]</pre> <p>should bold the "o"s. See http://txstyle.org/doc/16/strong-and-bold-text</p> <p>Other textile guides claim that braces (I assume they mean {}) should work as well to offset word-internal formatting.</p>
