Redmine - Feature #16154

NAS Web Login

2014-02-23 09:17 - Scott Tolbert

Status:	Closed		**Start date:**	
Priority:	Low		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Accounts / authentication		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid			

Description

DO NOT DELETE THIS POSTING:

What on earth is the username and password defaults after installation?
Trying to log-in...no luck.

I cannot find the answer in FAQ.

http://www.redmine.org/projects/redmine/wiki/RedmineInstall#Step-10-Logging-into-the-application

#2 - 2014-02-24 12:13 - Jan Niggemann (redmine.org team member)

- Status changed from New to Closed

- Resolution set to Invalid

Scott, please realize that you are on the wrong website.
We develop a software product for online project collaboration.

Our software can be installed on a NAS, but your screenshot does not show a part of our software, hence, this is not the right place to ask for
NAS-related help.
