| Target version: | | Affected version: | |
| Resolution: | | | |
| Description | | | |
| According to this announce , Rails versions prior 3.2.17 are vulnerable to XSS and DoS attacks (resp. CVE-2014-0081 and CVE-2014-0082). | | | |
| As far as I know, Redmine still use a vulnerable version. It might worth upgrading. | | | |

History

#1 - 2014-03-03 14:23 - Toshi MARUYAMA

- Status changed from New to Closed

[2.4.4](#) and [2.5.0](#) was released yesterday.
