

Redmine - Defect #16258

Testing redmine with plugins. Redmine::Plugin.clear looks suspicious.

2014-03-06 16:17 - Kirill Smirnov

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Plugin API	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Fixed		
<b>Description</b>			
<p>We add several plugins to redmine code base and start running tests. Since some plugins intentionally break vanilla redmine logic a couple of tests fails. It looks confusing.</p> <p>To avoid that failures we patched redmine to skip tests if specific plugins are loaded. Unfortunately it does not work for functional tests, because of this piece of code: test/functional/admin_controller_test.rb:105</p> <pre>def test_no_plugins   Redmine::Plugin.clear    get :plugins   assert_response :success   assert_template 'plugins' end</pre> <p>The method Redmine::Plugin.clear looks suspicious: it clears hash of installing plugins without really unloading them. Plugin is loaded but every other class believes it does not.</p> <p>It is a defect or behaviour by design?</p>

This is the expected behaviour, this method is for testing purpose and does not unload plugins indeed.  
See the source comments: [source:/tags/2.5.0/lib/redmine/plugin.rb#L110](https://github.com/redmine/redmine/blob/2.5.0/lib/redmine/plugin.rb#L110)

The call to the method in this test is removed in [r12987](#), let me know if it solves your issue.

#2 - 2014-03-21 02:12 - Jean-Philippe Lang

- Status changed from New to Needs feedback

Other calls to Redmine::Plugin.clear are removed from tests in [r12988](#).

#3 - 2014-03-21 10:17 - Kirill Smirnov

The patches 12987 and 12988 really solve our issue, thank you!

#4 - 2021-07-24 04:00 - Go MAEDA

- Status changed from Needs feedback to Closed

- Resolution set to Fixed
