

## Redmine - Defect #16259

### Changing Tracker value on new issue form makes hidden fields appearing after hitting F5

2014-03-06 17:50 - druidPollux -

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Jean-Philippe Lang	<b>% Done:</b>	0%
<b>Category:</b>	Issues	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	2.5.1	<b>Affected version:</b>	
<b>Resolution:</b>	Fixed		
<b>Description</b> <p>While creating a new issue, when changing the 'Tracker' value, the 'Status' field is shown (it should not), and all other fields that should be hidden (considering the selected tracker) are properly hidden. After pressing F5 key, in order to refresh the page, the 'Status' field is hidden (as it should), but all other fields are appearing on the issue form, even the fields that should be hidden for the selected tracker.</p>			

#### Associated revisions

##### Revision 12970 - 2014-03-15 12:21 - Jean-Philippe Lang

Select proper tracker and status for when hitting F5 with browsers that preserve select values on reload, eg. Firefox (#16259).

##### Revision 13021 - 2014-03-29 15:36 - Jean-Philippe Lang

Merged r12970 (#16259).

#### History

##### #1 - 2014-03-06 17:51 - druidPollux -

Environment:

Redmine version 2.5.0.devel  
Ruby version 1.9.3-p484 (2013-11-22) [i386-mingw32]  
Rails version 3.2.17  
Environment production  
Database adapter Mysql2

##### #2 - 2014-03-06 18:15 - druidPollux -

Steps to reproduce:

- Go to Settings > Workflow > Fields permissions
- Select - Role: 'all' - Tracker: 'Feature'
- Edit
- Set Priority to 'Read-only' for Issue status 'New'
- Save the changes
- Go to projects
- Create a new project
- Create a New issue
  - => Tracker is set to 'Bug'
  - => Status field is hidden
  - => and Priority field is visible
- Change Tracker to 'Feature'
- => Status field is visible (it should not)
- => and Priority is now hidden (as it should)
- Refresh page (press F5)
- => Status field is hidden (as it should)
- => and Priority is now visible (but it should not)
- Change Tracker to 'Bug'
- => Status field is visible (it should not)
- => Priority field is visible (as it should)

##### #3 - 2014-03-15 12:25 - Jean-Philippe Lang

- Subject changed from Changing Tracker value on new issue form makes hidden fields appearing to Changing Tracker value on new issue form makes hidden fields appearing after hitting F5
- Status changed from New to Resolved

- Assignee set to *Jean-Philippe Lang*
- Target version set to *2.5.1*
- Resolution set to *Fixed*

This problem with the priority field comes from the fact that some browsers like Firefox preserves select tags values when hitting F5: when you reload the form with F5, Redmine generates the form for an issue with the default tracker (Bug) for which the priority field is visible but your browser preserves the previously selected tracker (Feature). This is fixed in [r12970](#) with a few lines a javascript.

For the status field problem, please post a separate issue. AFAIK, the status field cannot be hidden when first loading the form.

#### **#4 - 2014-03-29 15:36 - Jean-Philippe Lang**

- Status changed from *Resolved* to *Closed*

Merged.
