Redmine - Defect #1646

Wiki link as the first line of text on a page does not work

2008-07-15 05:49 - ian dees

Status:	Closed		**Start date:**	2008-07-15
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Wiki		**Estimated time:**	0.00 hour
Target version:	0.8			
Resolution:	Fixed		**Affected version:**	0.7.3

Description

A wiki link made using

```
![[wikilink]]
```

syntax, when placed so that it is rendered to be the first character at the beginning of a line, will not render.

For example, the following will work:

```
 * ![[a link as a bullet]]
```

```
firstword ![[second link]]
```

The following will not work:

```
![[a link]] as the first word
```

(shows as as the first word)

```
<span style="color:red">_[[Billy]] needs to
```

(shows as needs to)

History

#1 - 2008-07-16 20:52 - Jean-Philippe Lang

- Status changed from New to Closed

- Target version set to 0.8

- Resolution set to Fixed

It seems to be fixed in trunk (and here on redmine.org):

```
![[Guide|A wiki link]] at the beginning of a line.
```

gives:

[A wiki link](#) at the beginning of a line.
