

Redmine - Defect #16751

encryption

2014-04-25 04:34 - mark edwards

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	2.4.1
Resolution:	Invalid		
Description I could be wrong but i noticed that using the default config.. users table has a password hash and salt when i add a value to "database_cipher_key" on configuration.yml and execute rake to encrypt password => rake db:encrypt RAILS_ENV=production there is no change in the users table. what exactly is rake db:encrypt doing ? if anything.			

History

#1 - 2014-04-25 05:33 - Toshi MARUYAMA

- Status changed from New to Closed
- Resolution set to Invalid

See:
[source:tags/2.5.1/lib/tasks/ciphering.rake](#)

It is for LDAP and SCMs, not for user table.
