

Redmine - Patch #17401

Better fix for r13159 issue #16708

2014-07-07 09:34 - Daniel Felix

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Code cleanup/refactoring	Estimated time:	0.00 hour
Target version:	2.6.0		
Description			
You can fix this one with a little bit cleaner code:			
Change:			
<code><button class="tab-left" onclick="moveTabLeft(this); return false;"></button></code>			
to:			
<code><button class="tab-left" type="button" onclick="moveTabLeft(this);"></button></code>			
Browsers defaults often to type="submit" which submits the form. If you explicite define a type, it will be fine. The return false; is not the cleanest way, as... if you call some code afterwards, it won't be executed because the propagation ends there.

Revision 13326 - 2014-07-14 15:06 - Jean-Philippe Lang

Use type="button" instead of return false; (#17401).

Patch by Daniel Felix.

History

#1 - 2014-07-14 15:06 - Jean-Philippe Lang

- Category changed from UI to Code cleanup/refactoring
- Status changed from New to Closed
- Target version set to 2.6.0

Patch committed in [r13326](#), thanks!
