Description

Any chance to add the following one-liner to add another hook at the beginning of the body element like we have it at the bottom? Let's call it view_layouts_base_body_top (analogous to view_layouts_base_body_bottom).

```
</head>
<body class="<%=h body_css_classes %>">
<%= call_hook :view_layouts_base_body_top %>
<div id="wrapper">
```

That would be awesome!
