Hi I'm using redmine2.2.0 when I'm trying to login to my MYSQL database using root as user it is showing that access denied. Is the MYSQL got corrupted or MYSQL password got expired? Is there any way to resolve the issue without re-installing the redmine.

#2 - 2014-07-22 22:59 - Etienne Massip

- Status changed from New to Closed

- Resolution set to Invalid
