

## Redmine - Defect #1753

### .tar.gz file does not contain the proper permissions

2008-08-05 22:09 - Richard Hurt

<b>Status:</b> Closed	<b>Start date:</b> 2008-08-05
<b>Priority:</b> Normal	<b>Due date:</b>

<b>Category:</b>	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	<b>Affected version:</b>
<b>Resolution:</b> Fixed	

**Description**

The process that creates the .tar.gz file is broken. For some reason the archive is missing the execute permissions for the following files:

- public/dispatch.cgi.example
- public/dispatch.fcgi.example
- public/dispatch.rb.example
- script/about
- script/breakpointer
- script/console
- script/destroy
- script/generate
- performance/benchmark
- performance/profiler
- script/plugin
- script/process/reaper
- script/process/spawner
- script/process/spinner
- script/runner
- script/server

I spot checked several archives (0.4.2, 0.6.4, 0.7.3) and none of them had the proper bits set for these files. It should be a fairly simple and low risk fix.
