<b>Description</b>			
Hi there,  On our Redmine application when we try to attach the file, after choosing any file to attach the redmine application automatically starts uploading the file with 2 instants and other 8 on waiting. Also, it creates 21 fileupload field. This is unexpected behaviour, we had not made any changes on redmine code. This problem start occurred to be unknown.  I had attached the ScreenShot of issue. Kindly let us know the fix on it. Keeping it HIGH, as this is creating an issue while uploading large files.  HEY, this is unexpected, I can see same issue on redmine.org website too....!!! ATTACHING SS  Regards, Amit

### History

#### #1 - 2014-07-25 16:06 - Amit Baswa

Hi there,

Just now checked with other browser. The **problem is only with CHROME browser**. Other browsers are working fine with attachment functionality. Please check if we can do something on this issue.

#### #2 - 2014-07-25 16:31 - Zach Auclair

I am seeing this issue as well; to add another error scenario, I selected 4 files to upload, but only the first 2 actually got uploaded.

#### #3 - 2014-07-25 17:01 - George Gensure

- File redmine\_file\_upload.patch added

I have attached a fix for this. The .clone() jquery call is causing a recursive loop through the addInputFiles(this) onchange event handler. This patch disables the onchange handler for the duration of the clone call, restoring it on the cloned element when complete.

Please integrate this into trunk at the earliest possible opportunity.

#### #4 - 2014-07-25 17:46 - Toshi MARUYAMA

- Status changed from New to Closed

- Resolution set to Duplicate

Duplicate with [#17151](#).

#### #5 - 2014-07-25 17:46 - Toshi MARUYAMA

- Is duplicate of Defect #17151: File upload broken on Chrome 36 added
