## Description

The detailed wiki syntax help shows line numbers for code blocks in wiki syntax source:/branches/2.5-stable/public/help/en/wiki\_syntax\_detailed.html#L275, currently the wiki syntax doesn't show them though:

```
# The Greeter class
class Greeter
  def initialize(name)
    @name = name.capitalize
  end

  def salute
    puts "Hello #{@name}!"
  end
end
```

Should the line numbers be added to the code blocks or the line numbers be removed from the detailed help?
