Related to Redmine - Defect #28264: Global and public custom queries are show...	**Closed**

History

#1 - 2014-08-27 09:27 - Sébastien Pochiero

- Status changed from New to Resolved

i found the solution in app\models\query.rb :
"Members can not edit public queries that are <u>for all project</u> (only admin is allowed to)"

i replaced the line :
"is_public? && @is_for_all && user.allowed_to?(:manage_public_queries, project)"
by :
"is_public? && user.allowed_to?(:manage_public_queries, nil, :global => true)"

#2 - 2014-09-08 08:15 - Toshi MARUYAMA

- Status changed from Resolved to New

- Target version set to 2.5.3

#3 - 2014-09-08 08:17 - Toshi MARUYAMA

- Target version deleted (2.5.3)

#4 - 2014-09-08 08:23 - Toshi MARUYAMA

- Status changed from New to Closed

- Target version set to 2.5.3

- Resolution set to Invalid

Source comment says it is intentional.
source:tags/2.5.2/app/models/query.rb#L271

```
    # Members can not edit public queries that are for all project (only admin is allowed to)
    is_public? && !@is_for_all && user.allowed_to?(:manage_public_queries, project)
```

#5 - 2014-09-08 08:23 - Toshi MARUYAMA

- Subject changed from Can't modify public reports for non admin users. to Can't modify public queries for non admin users.

#6 - 2014-09-08 08:24 - Toshi MARUYAMA

- Target version deleted (2.5.3)

#7 - 2014-09-08 08:27 - Toshi MARUYAMA

- Subject changed from Can't modify public queries for non admin users. to Non admin users can't modify public queries for all project

#8 - 2014-09-08 13:54 - Jean-Baptiste Barth

If I understand correctly, you'd like a user who only has rights on Project A to manage a public query that is also used by Project B ? If so I don't think this is a good idea in the general case, and I'm OK with the actual default behaviour. If you really need this maybe you could make a simple plugin or keep the local patch you found. If I don't understand the request correctly, please correct me ;-)
