

Redmine - Patch #17847

Wiki extended help macros do not reflect basic Redmine macros

2014-09-11 20:02 - Felix Schäfer

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Baptiste Barth	% Done:	0%
Category:	Wiki	Estimated time:	0.00 hour
Target version:	2.6.0		
Description			
The wiki extended help only lists the hello_world, macro_list and include macros, and the help for include is incomplete.			
The currently available macros in vanilla Redmine are hello_world, macro_list, child_pages, include, collapse, and thumbnail.

Revision 13378 - 2014-09-11 23:25 - Jean-Baptiste Barth

Include new standard macros in wiki syntax detailed help pages (#17847).

Contributed by Felix Schäfer.

History

#1 - 2014-09-11 20:04 - Felix Schäfer

- File 17847-correct_extended_wiki_help.patch added

Patch attached.

The help is the output of macro_list, were applicable I have tried to keep already present translations.

#2 - 2014-09-11 21:15 - Jan from Planio www.plan.io

- Assignee set to Jean-Baptiste Barth

Jean-Baptiste, since you were asking me for "mergable, easy" patches, here's another one :)

(Hope it's okay to set you assignee just like that in this case... Let me know if it's not.)

#3 - 2014-09-11 23:26 - Jean-Baptiste Barth

- Status changed from New to Closed

- Target version set to 2.6.0

Jan: no problem, just note that I cannot guarantee I'll see it in 2 hours ;)

Felix: thanks for the patch! Committed in r13378 with fr translation.
